The students participate actively on the Environment Day every year and bring different kinds of saplings and plant them in the campus and they take care of them. In the SUPW periods the children are taught plant herbs and small plants and learn to take care of them.

Annual sports are conducted during the winter time in the school campus. No classes are held during the Sports week. The winners are given certificates and medals. Many students in Taekwondo and Martial Art participate in the District and national levels.

Creative innovations could be seen every year as the students make interesting models and charts for their science classes. They also participate enthusiastically in the Science and Art Exhibition every year. The teachers take great interest in motivating and guiding the students in their scientific temper.

Parents -Teachers' meeting are organized after every Periodic Assessments Results are announced. They are permitted to meet the subject teachers and discuss with them regarding the progress of their wards. Similarly, such meetings are even organized after the Term I and II Examinations. A general Parents meeting was organized with the SMC

members to discuss about the various innovative techniques to be adopted in the teaching process and also about the welfare of the school.

The SMC members also hold quarterly meetings in a year. Since this happens to be an upcoming school, various programmes and planning's of the school are still in rapid progress , so every year new changes and developments take place for the well - being of the students and the school. Frequent meetings are held for the teachers too where the review of the classes done are viewed. The teachers are smart, industrious and caring so that a friendly atmosphere prevails in the school. Moreover the green surrounding imbibes in them the spirit of freedom and joyfulness.
